## **Shout it Out!**

| G   | D/B                                   | C/A                      | D                |
|---|---------------------------------------|--------------------------|------------------|
| V1: I will rise and I will meditate and pray.   |                                       |                          |                  |
| V2: Break of day, shadows melt, darkness falls away.  |                                       |                          |                  |
| G   | D/B                                   | C/A                      | D (C)            |
| As you speak to me many mysteries un-fold. You're Lord of Lords, You've conquered all, death is overcome. |                                       |                          |                  |
| Am G/B  |                                       | D                        |                  |
| And I will be there when Your anointing falls.  And I will find You on this brand new day.                |                                       |                          |                  |
| Am G/B C D  For I have sought Your presence before the dawn.  So I can share in all Your victories.       |                                       |                          |                  |
| [chorus]  |                                       |                          |                  |
| <b>G</b><br>Shout i   | t out, shout it out                   | t, it's a new            | day!             |
| <b>D/F#</b><br>Shout i  | t out, shout it out                   | t, it's a new            | day!             |
| G/E<br>Shout it out, shout it out, sing   |                                       |                          |                  |
| <b>C/A</b><br>Glory t   | <b>D</b><br>o the King!               |                          | REPEAT           |
| <b>C</b><br>His nam   | G/B <b>↑Am</b><br>e be lifted up, exa | ( <b>G) ↓</b><br>alted - | Am D<br>on high. |
| <b>C</b><br>His nam   | G/B <b>^Am</b> e be lifted up, exa    | (G)<br>alted -           | Am D on high.    |
